Billing

The billing cycle for this plan uses anniversary billing, meaning your billing cycle commences on the day your service is connected and ends a month later.

This plan uses direct debiting and requires a valid credit card issued in your name to be used in the sign-up process. Once the initial month of your plan has been paid using this card you may opt to use BPay or Australia Post Bill Pay to pay for future invoices in place of a direct debit transaction. Please note that using these alternative payment methods incurs a handling fee.

Your invoice is generally created between 3-6 days after your billing cycle refreshes and is sent via email by default. You can opt to receive paper bills at a charge of \$2.50 per invoice. It is advised that invoices be paid on time to avoid being charged the \$15.00 late payment fee.
